

Kaan Hascan

Software Developer

kaanhascann@gmail.com | 05306884500 | Istanbul | https://github.com/kaanhascan

Profile

Junior Software Developer with a strong interest in backend and web development.
Highly motivated to enhance my skills and gain experience in
creating scalable, efficient, and user-friendly applications.

Education

Software Development Bachelor Degree 2021 – 2025 | Istanbul
Faculty of Computer and Information Sciences
Yeditepe University
GPA 3.05

Professional Experience

Software Intern 07/2024 – 09/2024
AIFTEAM

Developed backend solutions for SAP B1 integrations utilizing C# and Microsoft SQL Server.

Optimized data manipulation and management processes, ensuring data integrity across enterprise systems.

Software Intern 08/2025 – 09/2025
EnerjiSA

Engineered backend services and server-side structures using ASP.NET, Node.js, and Python.

Contributed to the development of an MCP Server Project, facilitating seamless cross-technology integrations.

Managed end-to-end project modules, optimizing data flow and enhancing overall backend efficiency.

Skills

Languages: C#, Java, JavaScript, HTML

Frameworks & Technologies: ASP.NET, Spring Boot, NestJS, Node.js,React,React-Native

Databases: PostgreSQL, Microsoft SQL Server

Core Competencies: Backend Development, RESTful APIs, Object-Oriented Programming (OOP), Data Structures & Algorithms

Projects

Tarladan 2024 – 2025
A Farmers Market Mobile Application

Co-founded and engineered a mobile platform connecting agricultural producers directly with consumers to minimize intermediary costs.

Designed and implemented the backend architecture and database structures using NestJS and PostgreSQL.

Awarded 2nd place in the Yeditepe University Entrepreneurship Competition for innovative business and technical model.
